

# I'm Crazy and You're Gone

## Creed Fisher and the Redneck Nation

Smokey bars & ol guitars are things Ive always loved.right or wrong they made me feel at home, you never could understand by loving more holding hands.I guess your right and I was wrong.

An I run my life straight into the ground,I felt the pain without you around.I seen my world come crashing down.it's been way to long I'm crazy and your gone,it's been way to long I'm crazy an your gone----phone call-----u know this life I chose it gets hard sometimes.the bright lights can blind you getting into your eyes .gonna be a big star,gonna drive a big car gonna play your songs in a honky Tonk bar .I still remember the things that you say ,I would regret it well baby I did an I run my life into the ground I felt the pain without you around an I seen the tears as they hit the ground it's been way to long I'm crazy n your gone it's been way to long I'm crazy an your gone
