Barbwire

Allen Stone

She moves just like water
Like rain fallin' down
Soft as the wind
When she opens her mouth
She's got eyes like the stars
And the moon for her heart
She glows through the night
And illuminates the darkWe're higher and higher
There's nowhere I wouldn't go
And farther and farther
Well, baby, you've gotta know
Walk on barbwire
To get closer to you
And run through bonfires
To show you my love's true
I'd give my life away
To make sure you were safe
I'd walk on barbwire
BarbwireWhat's a little blood?
Mm, if it's all for love
She dances like fire
I'm melting for more
Burning desire, down to my core
She's got eyes like the stars
And the moon for her heart
Swim 'cross to an ocean
Just to die at her doorWe're higher and higher
There's nowhere I wouldn't go
And farther and farther
Well, baby, you've gotta know
Walk on barbwire
To get closer to you
And run through bonfires
To show you my love's true
I'd give my life away
To make sure you were safe
I'd walk on barbwire
BarbwireWhat's a little blood?
No, if it's all for love

What's a little blood?
If it's all for love
I don't wanna waitHigher and higher
There's nowhere I wouldn't go
Farther and farther
Well, baby, you've gotta
Walk on barbwire
To get closer to you
And run through bonfires
To show you my love's true
I'd give my life away
To make sure you were safe
I'd walk on barbwire
BarbwireWhat's a little blood?
Oh, if it's all for love
Yeah, what's a little blood?
If it's all for love
