Drive

Melissa Ferrick

If you want this
if you want this
if you want this, youre gonna have to ask
nicely please
yeah if you want this
youre gonna have to ask me
youre gonna have to ask meWhatever you want
Ill give it to you
Ill give it to you slowly
till youre just begging me to hold you
ya whatever you want
whatever you want
but youre gonna have to ask meYour mouth waters
stretched out on my bed
your fingers are trembling
and your heart is heavy and red
and your head is bent back
and your back is arched
my hand is under there
holding you upIll hold you up
and drive you all night
Ill hold you up
and drive you baby till you feel the daylight
Ill hold you up
and drive you all night
Ill hold you up
and drive you till you feel the daylight
thats right
thats rightIn the kitchen
in the shower
and in the back seat of my car
Ill hold you up
in your office
preferably during business hours
cause you know how I like it when theres people around
and I know how you like it
yeah I know how you like it
I know how you like it when I tease you for hoursYour mouth waters
stretched out on my bed

your fingers are trembling
and your heart is heavy and red
and your head is bent back
and your back is arched
and my hand is under there
holding you upIll hold you up
and drive you all night
Ill hold you up
and drive you baby till you feel the daylight
Ill hold you up
and drive you all night
Ill hold you up
and drive you till you feel the daylight
oh and this has just begunYeah this has just begun
because we havent even gotten started yet
I havent even
I havent even tied you up
I havent even turned you over
this is where I want to live
right here between your hips
where all the love you hold and hide
its where it lives
right here between your hips
this is where I want to live
its where all the love you give existsYour mouth waters
stretched out on my bed
your fingers are trembling
and your heart is heavy and red
your head is bent back
your back is arched
my hand is under there
holding you upIll hold you up
and drive you all night
Ill hold you up
and drive you baby till you feel the daylight
Ill hold you up
and drive you all night
Ill hold you up
and drive you baby till you feel the daylight
thats right
yeah
thats right
thats right
thats right
Ill hold you up

thats right
thats right
Ill drive you all night
