Baby Come Back To Me

Black Brothers

Take it back to the place, where we used to be
Girl can't you see, I'm the one
Who'll be there with you through it all
Whenever you call
Baby, tell me why
Oh, why did we fall apart?
Don't you blame it on your heart
I just want things back, back to the start
I'll be waiting 'til you come
Baby come, baby come back to me
Baby now, when I close my eyes you are there
Tell me you care, gotta know
That the love we have is for real
Time will reveal
Baby, tell me why
Oh, why did we fall apart?
Don't you blame it on your heart
I just want things back, back to the start
I'll be waiting 'til you come
Baby come, baby come back to me

Girl it's tearing me apart
I just want you back, back in my heart
Can't you see that I'm the one
Baby come, baby come back to me
I don't care what people say
I need you with me, every day
I don't care what others do
All that I need is you
Don't you blame it on your heart
I've been waiting, so baby, come back to me
I want you back in my life
I've been waiting, so baby, come back to me
Don't you blame it on your heart
I just want things back, back to the start
Can't you see that I'm the one
Baby come, baby come back to me
(I want you back)
Baby come back to me

(I've been waiting)
Baby come back to me
