Happy Sometimes

Nothin' but honest
Ain't that whatcha' wanted
Guess it's all I can say
Cause you're just like me
And you ain't gonna want it, until it walks away
Oh looove
Look what you've done x2
Nothing if flawless
Hold on while you've got it
Everything's meant to change
Cause you're just like me
And you don't know you got it until it's gone away
Oh looove
Look what you've dooone
Love me like a candle
Flicker in the window
Painted rose gold
Soaking in the warm glow
Wonder when you come home, when you gonna come home
I'll burn into the blue prints if you keep my waiting
When you come back, coming back to nothin'
Did I never tell you, loving me is dangerous
Feeling so haunted
Hide in my closet
Skeletons out of place
When you're just like me
You don't know you've got em'
Until you're too afraid
To looove x2
Love me like a candle
Flicker in the window
Painted rose gold
Soaking in the warm glow
Wonder when you come home, when you gonna come home
I'll burn into the blue prints if you keep my waiting
When you come back, coming back to nothin'
Did I never tell you, loving me is dangerous
Oh did I never tell you, loving me is dangerous
Don't leave me liiit x2

Don't leave me lit x3 (don't leave me)
Love me like a candle
Flicker in the window
Painted rose gold
Soaking in the warm glow
Wonder when you come home, when you gonna come home
I'll burn into the blue prints if you keep my waiting
When you come back, coming back to nothin'
Did I never tell you, loving me is dangerous
Don't leave me lit
