Trouble

Keith Richards

Just because you find yourself
Off the streets again
That don't mean that I can help you
Or I ain't your friendBaby trouble is your middle name
The trouble is that that's your gameNow you are out of circulation out of reach and out of touch
Let me keep you in the loop
Though I can't tell you muchBaby trouble is your middle name
The trouble is that that's your gameJust because I can't see you see you anymore
That's because honey you're doing two to fourBaby trouble is your middle name
The trouble is that that's your gameJust because you find yourself
Back to jail again
That don't mean that we can connect you know
Or I'm still your friendBaby trouble is your middle name
The trouble is that that's your gameEven though you are still inside
I could get you off the hood
But I know if I get you out
I won't get a second lookBaby trouble is your middle name
The trouble is that that's your gameTrouble
Too much trouble
Too much trouble
Too much trouble
