Before We Go

Chapters

Before we go I want you to know
How much I love sharing with you
All that I have and all that I am
Belongs to you all of the timeYou been so kind and wonderful
By being here so close to me
Deep in my heart I clearly see
That you and I will soon be freeI'll be standing here waiting on you
And I can hardly wait
To make you mine, mine, mine, mine, mineNow it's time to go and nothing can stop
Or even delay our journey's goal
Remember to be one with you heart
One with the sky, one with the sea
