

# The Face

## Kings of Leon

Beneath the dance hall lights  
You see my girl so sound  
Lights up the ground If you give up New York  
I'll give you Tennessee  
The only place to be The cowboy's burning eyes  
Don't like the sight of me  
Just straight enough to breathe  
I like your point of view  
So don't you shy away Ride out the wave  
Ride out the wave  
Ride out the wave Ride out the wave  
Ride out the wave You had me holding on  
All of the time and place  
Ride out the wave  
Bury yourself away  
The one and only face Ride out the wave  
Ride out the wave  
Ride out the wave
