Physical

Rodney Hunter feat. Earl Zinger

Let me into your life
Gimme a minute, gimme the night
I know a secret spot where we can hide
I'll take you there if you?re willing to ride
Look around, this place is no surprise
I'm the girl and baby you the guy
I got a body you can exercise
Let's kick it up a notch to 99
Let's dance, let's get physical
Work your body like some cardio
Let's dance, let's get physical
Let's get emotional and take off our clothes
Don't need the breakfast goin? overdrive
Thought the clock was goin? overtime
Have to throw it to you over right
Bet my money staying over night
Look around, this place is no surprise
I'm the girl and baby you the guy
I got a body you can exercise
Let's kick it up a notch to 99
Let's dance, let's get physical
Work your body like some cardio
Let's dance, let's get physical
Let's get emotional and take off our clothes
Let's keep moving, don't you stop
?Cause we got to keep this place hot
And you got to show me what you got
Let's take it to the floor
Let's dance, let's get physical
Work your body like some cardio
Let's dance, let's get physical
Let's get emotional and take off our clothes
Let's dance, let's get physical
Work your body like some cardio
Let's dance, let's get physical
Let's get emotional and take off our clothes
