

Stop the Tears

Air Supply

I stopped seeing all of our old friends
I don't go to places that you've been
I stopped talking about you
Started living without you
But there's just one thing, I don't understand How do I stop the tears
How am I supposed to deal with this
How do I stop the tears
Do I get over you in a week or two
When I been lovin' you for years Everybody thinks that I'm so strong
They don't know what I go through when I'm alone
I start thinkin' about you
Goin' crazy without you
But I stop myself and I hang up the phone How do I stop the tears
How am I supposed to deal with this
How do I stop the tears
Do I get over you in a week or two
When I been lovin' you for years One day, you'll call me up goin' crazy
Too late you'll want me back
You'll be sayin', you'll be saying How do I stop the tears
How am I supposed to deal with this
How do I stop the tears
Do I get over you in a week or two
When I been lovin' you for years
