

Erase

Building 429

You will be in my heart forever
You will be with me, close as a dream
There'll be no faded memories
That will never be you and me
Cause I know you'll be standing here tomorrow Every moment with you I cherish
Every blessing poured out
Echoes of your love
You always take me higher than
The sorrow of this fallen man
And if I should ever lose my way CHORUS
I can always go back
To the place of you and me
And I will find you once again
Just like I remember
Time it will erase the world around us
But I will never be alone
Cause time can't erase love Your voice is music to my heart
You always sing to me just like a prayer
When the walls of my mind are caving in
I can hear you whispering and I
I'm taken away CHORUS Even if the sky falls down
We will have our place that time can't take away CHORUS
