

Kiss It

Grinspoon

All you say
Is give me the money
It's hard to care
When you lied to me honey Watch you do
Is standing masturbation
Can you prove?
The words are for tasting Were not gonna kiss until you understand
Were not gonna kiss until you understand
Were not gonna give into your wishers
We dont give a shit if you dont miss us
Come and try and kiss it come and take a chance You lied to me
And you lied to the nation
On your knees
These a bid for the speaking Speak your mind
Dont let me stop you
When you find
Your bred for the killing Were not gonna kiss until you understand
Were not gonna kiss until you understand
Were not gonna give into your wishers
We dont give a shit if you dont miss us
Come and try and kiss it come and take a chance Sorrow
Sorrow I said it boosted from a night stand
I got directed by the last little thing that you planed All you say
Is give me the money
It's hard to care
When you lied to me honey Were not gonna kiss until you understand
Were not gonna kiss until you understand
Were not gonna give into your wishers
We dont give a shit if you dont miss us
Come and try and kiss it come and take a chance
