Kill or Become

Cannibal Corpse

Advisory - the following lyrics contain explicit language:

Viral contagion unleashed upon the earth
Billions of infected dead soon rise
Stalking the living to feast upon the flesh
Its fight or flee to surviveLiving out the days and nights in absolute fear
Never knowing when and where the
threat of the undead draws near
Toughts of those left behind
Are slowly tormenting your mindKilling is essential to survive
The world you once knew forever changed
Scavenging just to stay alive
Time to release your inner rageFire up the chainsaw
Hack all their heads off
Fire up the chainsaw
Hack their fucking heads offIf you want to live you have to kill or become
There's no other way you have to kill or become
If you want to live you have to kill or become
There's no other way you have to kill or becomeFire up the chainsaw
Hack all their heads off
Fire up the chainsaw
Hack their fucking heads offViral contagion unleashed upon the earth
Billions of infected dead soon rise
Stalking the living to feast upon the flesh
Its fight or flee to surviveFire up the chainsaw
Hack all their heads off
Fire up the chainsaw
Hack their fucking heads offIf you want to live you have to kill or become
There's no other way you have to kill or become
If you want to live you have to kill or become
There's no other way you have to kill or becomeFire up the chainsaw
Hack all their heads off
Fire up the chainsaw
Hack their fucking heads off
