

# She Knows the Words to Every Song

## Wayne Mills Band

I been thinkin' bout what you been cryin' bout  
baby there aint no doubt about what we need to do  
Let's pick a highway see where it goes  
roll down the window baby turn up the radio

Girl you me crazy the way sing along  
I think your so damn cute you know the words to every song  
She know the words to every song

A vacation to rest our weary souls  
baby I'm sick and tired of makin' love on a telephone  
All these lonely nights are drivin' me insane  
I been talkin' to myself just to hear your name

(Chorus)

So pick a highway see where it goes  
roll down the window baby turn up the radio  
Girl you me crazy the way sing along  
I think your so damn cute you know the words to every song  
She know the words to every song

I'm tired of spending all these nights alone  
baby I'm sick and tired of makin' love on a telephone

(Chorus)

(Chorus)
