Jennifer's Cold

Buck-O-Nine

On the freeway, all the cares have stopped
'Cause the big news has dropped
All the phones are ringing
It's got all the neighbors singingPolice chief is calling the detectives
Navy SEALs are being selected
President is calling his advisors
Greenpeace is putting out flyersWe've got ourselves a little situation
It's worse than an alien invasion
Jennifer has got a cold and
Everybody's got to knowWe've got ourselves a little situation
It's worse than an alien invasion
Jennifer has got a cold and
She can't complain to no oneThere's a news break, for everybody watching
Jennifer has just started coughing
The doctors can't explain it
"How did she ever obtain this?"All her friends are sending get well cards
"You could beat it, just gotta fight hard"
All the world is sitting home waiting
All the priests are singing and prayingWe've got ourselves a little situation
It's worse than an alien invasion
Jennifer has got a cold and
Everybody's got to knowWe've got ourselves a little situation
It's worse than an alien invasion
Jennifer has got a cold and
She can't complain to no oneSWAT Team has Jennifer surrounded
Coast guard takes her to an island
Out there, no one gets infected
Jenny lives where she can be protectedUnited Nation emergency meeting
Declares the whole world is grieving
And peace will come if Jenny just gets well
Please come home soonWe've got ourselves a little situation
It's worse than an alien invasion
Jennifer has got a cold and
Everybody's got to knowWe've got ourselves a little situation
It's worse than an alien invasion
Jennifer has got a cold and
Everybody's got to know
