

# Let's Get It On

## The Vintage Caravan

Hey, there bad seeds, let's get it on  
I'll shut up and keep my end  
Let's get it on  
Our sycophantic replacements are here at last  
So impossible  
The doubt in the everything, on everything  
Is so impossible  
So load up and keep marching  
The push is on  
So impossible  
The doubt in everything, on everything  
Is so impossible  
Down came your blackbird to suffer in my arms
