

Division of Mind

Front Line Assembly

In through the out door, out to the west
This fascist nation never rest
Fight back, fight back, fight back, fight back Rulers of hatred, we execute pain
Not with our hands but others we pay
Fight back, fight back, fight back, fight back No mutual surrender, scent of chud
With infinite spirit we never give up
Fight back, fight back, fight back, fight back The alter of truth is for the living
The alter of truth is unforgiving A network of drug lords rule the land
This democracy will never stand
Fight back, fight back, fight back, fight back The alter of truth is for the living
The alter of truth is unforgiving
Division of mind is strangulation
Division of mind is suffocation The tandem mirror shatters in two
Chaotic people, invalidate you
Fight back, fight back, fight back, fight back Reprogrammed vision, dimensions of fright
Hollow delusion, we all lose sight
Fight back, fight back, fight back, fight back Syringed injection into your arm
Final solution, now you will come
Fight back, fight back, fight back, fight back The alter of truth is for the living
The alter of truth is unforgiving
Division of mind is strangulation
Division of mind is suffocation The alter of truth is protection
The alter of truth is resurrection
