

# This Graceless Planet

## We Versus the Shark

Rebels, guns, ingenues--all diamondless coal  
Paranoia and pop charts, but you know how we roll  
What's that, baby? Yeah, I miss god too  
But he's doing just fine without you, that's right  
This graceless planet has accrued its debt  
(And now it's time to pay it up)  
This graceless planet has accrued its debt  
(And now it's time to pay it up)  
This graceless planet is a skull's head death  
(And now it's time to pay it up)  
It's been a long time, I shouldn't have left you  
Disciples from the past have come  
for yr daughters  
A gentleman from the future has reclaimed California  
A frozen clock sudden stop puts culture shock at odds  
Baby needs some new math, baby needs a couple more jobs  
And we have always lived in this village  
And we have always lived in this village
