Long Lost

Better Than Ezra

Are you lost?
Do you find life turning out
Not quite the way you planned?
Come around stay awhile
That's okay that's all right
Couldn't get to sleep so talk about it
Let's talk about it right now
Here it comes on my head again
Well I guess I'm born to be the long lost friend
Friend long lost friend
Are you cold?
Is there no place
Better, safer, friendlier than this?
Call me up, I'm alone
That's okay that's all right
Rather it be me than go without it
So don't think about it right now
Here it comes on my head again
I guess I'm born to be the long lost friend
Friend long lost friend
I've given ballast
Held you up when you were falling down
What happens when I'm not around?
Friend, long lost friend, friend, friend, friend
