

# Blinded

## The Bots

Turn me out then turn me on  
Pretty flower cannot you tell me  
What's become of who we are  
Only asking what you'd like tonight  
We'll take America  
Just shake my tits and ass  
Yeah, we'll go far  
And if we wanted more  
Then that was only what we thought our right was  
Only wanted more  
But we were always blinded  
Here we want to try  
But I can't try to be as plain as daylight  
Looking to the world  
But we were always blinded  
Sell a little bit to you  
A circus sideshow but the makeup's shining through, it's not so bad  
Is there anyone to know?  
Forget my politics, just sex me 'til I'm done, it's not so hard  
And if we wanted more  
Then that was only what we thought our right was  
Only wanted more  
But we were always blinded  
Here we want to try  
But I can try to be as plain as daylight  
  
Looking to the world  
But we were always blinded  
And all the stars are out for you  
And everybody's hiding here  
And all the stars have come unglued  
But everybody, everybody's changing  
We're changing  
We're changing  
And if we wanted more  
Then that was only what we thought our right was  
Only wanted more  
But we were always blinded  
Here we want to try

But I can't try to be as plain as daylight  
Looking to the world  
But we were always blinded, always blinded  
And all the stars are out for you  
And everybody's hiding here  
And all the stars have come unglued  
But everybody, everybody's changing  
We're changing  
We're changing  
Thank you
