

I Wonder

Gotthard

I'm running out of love, I'm losing ground
There's emptiness inside, I'm on my way down
And here I walk alone with no destination
Or places to go You're always on my mind, no wonder why
We had the best of times, oh, I can't deny
But something fell apart, I know how it feels now
When two worlds collide Now I can't believe you're gone tonight
When I should be holding you so tight
I can't believe and I wonder
(I wonder)
I wonder
(I wonder)
Where were going
Love don't live here anymore
Anymore, anymore Now, when I close my eyes, pictures of you
Will never hold me back from what I must do
Ain't gonna waste my time
Thinking bout all the pain, you put me through, baby Now I can't believe you're gone tonight
When I should be holding you so tight
I can't believe and I wonder
(I wonder)
I wonder
(I wonder)
Where were going, yeah And I keep on walking in the rain
I like to believe you feel the same
I wonder+
(I wonder)
Yes I wonder
(I wonder)
Is it over?
Love don't live here anymore Now I can't believe you're gone tonight
When I should be holding you so tight
Can't believe and I wonder
(I wonder)
I wonder
(I wonder)
Where were going, oh yeah And I keep on walking in the rain
I like to believe you feel the same
I wonder

(I wonder)
Yes I wonder
(I wonder)
Is it over?
Love dont live here anymore
Anymore, anymore Love dont live here anymore
Anymore
