Love in Silence

Xander Ghost

(guitar)....

Lets just love in silence
Never see me leaving
lets just love in silence
Never see me leaving
again
never leave me again
lets just love in silence
Never leave....

would you be mad at me if i kept it low
all eyes on you like somethings wrong
I'll keep you close to me in sadness
so hard to practice.. love with all those werewolves.
So tell me everything i got. Tell me everything i got. Tell me what you.where i belong. Oh

Still falling for you
