

# Viva La White Girl (Remix featuring Lil Wayne)

## Gym Class Heroes

Fame, fortune, platinum records  
It's every boy's dream True story  
Somebody asked me one time  
Travie, you high?  
You look high  
Shit, yeah, I'm high Let's go The world is yours, so play the role  
Blow the dust off this record and put the needle down slow  
Our veins are cold, but we'll never grow old  
Let's have a toast, and raise our drinks  
No hearts on our sleeves, just eagles on our cuff links  
It's such a rush to know you love me so much We'll do whatever you want to  
Girl, I'll make a movie star of you  
You know that I could  
If you let me be your Hollywood We'll get high, and hide  
We are lovers to the glamorous  
White girl so fine  
Going up on the downtown line  
We'll get high, and hide  
We are lovers to the glamorous  
White girl so fine  
Going up on the downtown line Take your razor, break down my line  
Put your nose to the speaker  
Now breathe in, breathe in Clean up your nose, and face the crowd  
Then kiss your mirror 'cause we're all stars now  
Isn't it fun how music makes your lips numb? We'll do whatever you want to  
Girl, I'll make a movie star of you  
You know that I could  
If you let me be your Hollywood We'll get high, and hide  
We are lovers to the glamorous  
White girl so fine  
Going up on the downtown line  
We'll get high, and hide  
We are lovers to the glamorous  
White girl so fine  
Going up on the downtown line Take your razor, break down my line  
Put your nose to the speaker  
Now breathe in, breathe in We'll get high, and hide  
We are lovers to the glamorous  
White girl so fine

Going up on the downtown line  
We'll get high, and hide  
We are lovers to the glamorous  
White girl so fine  
Going up on the downtown line Breathe in  
Breathe in  
Breathe in  
Breathe in
