

Sonic Homicide

Annihilator

Advisory - the following lyrics contain explicit language:

Blasting and ripping it apart
The intense pain numbing to a pinch
Tearing the fabric of the soul
The killing is inch by inch Listen to the words of the sick fuck
C'mon and drop to your knees
You want compliance, you want control
Devastation done with ease Sonic homicide
A torture that's burning through the ears
Sonic homicide
Beware the killing is for real
The killing is for real Stone cold, a victim of the freeze
The ice pick stabbing through the heart
Airwaves as deadly as can be
The damage has been done right from the start Sonic homicide
A torture that's burning through the ears
Sonic homicide
Beware the killing is for real
The killing is for real Slipping into madness I can't deny the blame
I can't make out reality, I can't deny the shame
Years and years of torment, the life just hanging on
It's time to change the coarse, it's time to see the dawn Call up the power and bring on the faith
Bring on the demons 'coz this match is made
I'll face the anger and I'll raise my head
To fight this beast and wake the dead
Dead, wake the dead
Come on and wake the dead Grow Stone cold, a victim of the freeze
The ice pick stabbing through the heart
Airwaves as deadly as can be
The damage has been done right from the start Sonic homicide
A torture that's burning through the ears
Sonic homicide
Beware the killing is for real Sonic homicide

A torture that's burning through the ears
Sonic homicide
Beware the killing is for real
[Incomprehensible]
