Do You Know Where Your Man Is

Pam Tillis

Night is fallin' on this honky tonk city
Country music spliin' out on the street
Sure can sound good to a hard workin' man
At the end of a hard workin' weekDid you kiss him when he left this morning?
Does he know that he's needed at home?
If you don't feel that old thrill then somebody else will
There's some mighty good women all aloneIt's ten o' clock, do you know where your man is?
And are you sure that he's doin' you right?
Are you still in his heart when he's out of your sight?
Do you know where your man is tonight?Sometimes lovers just get too busy livin' their lives day by day
A true lovin' heart is so hard to find and so easy to let slip away
So if he's there by your side count your blessing
Hold him tight and show him you care 'cause temptation's out there
