

Don't Forget Me (when You're Gone)

Mxpx

No, I'm not mad about you
Just a little sad without you
I know it's mostly all my fault
I drive myself insane
And there's no one else to blame
I know I hurt you time and time again
And don't forget me when you're gone
And don't forget me when you're gone
'Cause my heart still hurts
My heart still hurts, my heart still hurts
My heart still hurts, my heart still hurts
You stop my world from turning
You could make the sun stop burning
That's something I could never do
And don't forget me when you're gone
And don't forget me when you're gone
'Cause my heart still hurts
My heart still hurts, my heart still hurts
My heart still hurts, my heart still hurts
My heart still hurts
There is something in your eyes
That saw through my disguise
And just kept on right on looking through
'Cause my heart still hurts
My heart still hurts, my heart still hurts
My heart still hurts, my heart still hurts
My heart still hurts, my heart still hurts
My heart still hurts, my heart still hurts
