

D.J. Hit That Button

Dead or Alive

The way I have to look is
I want more than anybody possibly can
The way I have to go for it
It makes me stand up, shake and feel like a man
And I feel just like a radio
And when the DJ hit that button
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
Anyone can have feet
Ooh, but they got to learn to use it
There's a special channel here
So do you get it or you lose it?
And I feel just like a radio
And when the DJ hit that button
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
Hit that button, hit that button
Hit that button, hit that button
The way I have to look is
I want more than anybody possibly can
The way I have to go for it
I got to stand up, shake and feel like a man
And I feel just like a radio
And when the DJ hit that button
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
That's the way it was meant to be, yeah
That's the way it feels right for me , yeah
