Star Dream Girl

David Lynch

Crank up that radio, let me
Tell y'all a story
They're coming from all around
Flying down that wide highway
Coming like crowds like never before
Her being the one they can't wait to seeEvery night they come, to dream of her
Star dream girl, star dream girlCrank up that radio, let me
Tell y'all a story
They're coming from all around
Flying down that wide highway
Coming like crowds like never before
Her being the one they can't wait to seeStar dream girl, star dream girl
Every night they come, to dream of her
