Js

[MR. BIGGS]- I really enjoy ya (aww ya)  
Just hangin out doing things  
I got a lot of love for ya (no games ain't nothing changed)  
Now why ya want to call my cell  
Talkin bout love me or leave me alone  
Girl you knew from the gheto  
So whatcha leave this message for

[CHORUS] (JS)- Its been a while  
And this .... ain't my style  
If its gonna be, then let me know  
If not then let me go right now  
If you want my love  
Baby handle your business  
If its not about us  
There's no sense in chillin chillin  
If I'm what you want  
Lets start billin  
'cause whenever your around, I get this feeling  
Feeling

[JS]- Baby you must not know what love means  
'cause if you did you wouldn't do these things  
Love ain't always getting in my jeans  
But that's all you want to do it seems  
What about deep conversation?  
Sharing secrets, being there for one another  
When the other needs it  
You say you love me and I don't believe it  
That's why I have to call and say

[CHORUS] (JS)- Its been a while  
And this .... ain't my style  
If its gonna be, then let me know  
If not then let me go right now  
If you want my love  
Baby handle your business  
If its not about us  
There's no sense in chillin chillin

If I'm what you want  
Lets start billin  
'cause whenever your around, I get this feeling  
Feeling

[JS]- Ronald make up your mind  
[MR]. BIGGS- Oh candy say can I take my time  
[JS]- see'mon boy your wasting time  
[MR]. BIGGS- girl I want you in my life baby  
[JS]- right now boy you gotta choose  
[MR]. BIGGS- ooh you got me so confused  
[JS]- I love you  
[MR]. BIGGS- I love you too girl

[CHORUS] (JS)- if that's true you know what you gotta do  
Its been a while  
And this .... ain't my style  
If its gonna be, then let me know  
If not then let me go right now  
If you want my love  
Baby handle your business  
If its not about us  
There's no sense in chillin chillin  
If I'm what you want  
Lets start billin  
'cause whenever your around, I get this feeling  
Feeling
