

# Dreaming Of Me

## Depeche Mode

Light switch, man switch  
Film was broken only then  
All the night, fused tomorrow  
Dancing with a distant friend  
Filming and screening  
I picture the scene  
Filming and dreaming  
Dreaming of me, yeah  
So we left understanding  
Clean cut, so we're sounding fast  
Talked of sadness, I talked of war  
I laughed and climbed the rising casts  
Filming and screening  
I picture the scene  
Filming and dreaming  
Dreaming of me, yeah  
Quickly, I remember  
Fused and saw a face before  
Timing reason, understanding  
Like association whore  
Filming and screening  
I picture the scene  
Filming and dreaming  
Dreaming of me, yeah  
Dreaming of me  
Just dreaming of me  
It's only me  
Just me
