

Excuse Me

Ken Atkins & the Honky Tonk Kind

(Lisa Marie Presley/Clif Magness)

It's finally winter and I'm so happy

I do better in the cold

I like the friends who don't try to save me

I've been trying that too long

What did I just say can you tell me

Sorry I do that a lot

Did you know I broke up my family

And the guilt is never gone

Mister did you

Say something to me

Were you there this whole time

Please excuse me

You know there's some who really hate me

Hey you know that's a unique dog

You have a nice smile want some candy

Some people say that I have too much

I had a good feeling when I woke up

But I missed it 'cause I was sleeping

Did you know I broke up my family

Oh the guilt it's really killing me

Mister did you

Say something to me

Were you there this whole time

Please excuse me

Mister did you

Say something to me

And were you there that whole time

Excuse me

Mister did you

Say something to me

And were you there that whole time

Well please excuse me

Forgive me
