You make me lose my buttons
Oh yeah, you make me spit
I don't like my clothes anymore We're spending time and money
Yeah, you're colder than yourself
Now we're moving, now we're taking control You make me lose my buttons
Oh yeah, you make me spit
I don't like my clothes anymore You put me to New Orleans
Yeah, you put me to the test
I know what my heart is for You reach out for a blanket
I say girl you've got something
I love how you wear it Now we're spending time and money
Yeah, you're colder than yourself
Now we're moving, now we're taking control Love will get you down My love's a laboratory
I set all my pets free
So baby, you should sleep with me I make trips to the bathroom
Yeah, my friends all have true grit
I'm speckled like a leopard Put a lid on Shirley Temple
Yeah, you make sleek kills
Yeah, you travel, you travel You park me in your Buick
You sing songs into my lips
Well I'm speckled like a leopard
Just like a leopard And love will get you down I love the way you put me in the big house
I love the way you put me in the big house If I get there early will it be the right time?
Our heaven is just waiting, so put your hand into mine
If I get too surly will you take that in stride?
Our boat is just there waiting so put that little hand in mine And speak when you're spoken of
Catch up on your sleep girl
When you wear that body glove
You're acting on initiative
You're spelling out your love
You shouldn't be alone in there
You could be above ground All I want is to be the very best for you
Oh yeah, all I want is to do the very best by you
Oh, this time
There'll be no life of crime
Don't rain on me tonight Circle around me now, baby
It will be okay
'cause we all go downtown sometimes Somehow baby, we'll beat this mess
It's the time, fuck the surface to meet the specialist And time away from me will get you down I love the way

you put me in the big house
I love the way you put me in the big house If I get there early will it be the right time?
Our heaven is just waiting, so put your hand into mine
If I get too surly will you take that in stride?
Our boat is just there waiting so put that little hand in mine And speak when you're spoken of
Catch up on your sleep
When you wear that body glove
You're acting on initiative
You're spelling out your love
You shouldn't be alone in there
You could be above ground If you're frustated then go
If you're frustated then go Honey bee, we should be through with this,
Your packaged eyes, your vicious lips
You could be young, but you're out of touch
If this love's been done, then what's your rush? I'm a specialist in hope and I'm registered to vote
Why don't you come into my barrio we'll see if you can float
I'm a specialist in hope and I'm registered to vote
Why don't you come into my barrio we'll see if you can float
