In My Blood

Leo Stannard

It's all I see
It's all I need
Don't make sound
I've been looking for something everyone knows
And you to me
Are family
It's all clearer now
We've been going to places nobody goesWas it real or did I just make it up
And I don't know how it happened
But you got into my blood
And I feel like you're lifting me up
Now every time I close my eyes
I know that I'll wake up
With you in my blood
With you in my bloodAnd honestly
I can't believe
Where we are now
We've been growing together all of this time
And you to me are family
I love what I've found
I could never lose you even if I triedWas it real or did I just make it up
And I don't know how it happened
But you got into my blood
And I feel like you're lifting me up
Now every time I close my eyes
I know that I'll wake up
With you in my bloodIn my bloodWas it real or did I just make it up
And I don't know how it happened
But you got into my blood
And I feel like you're lifting me up
Now every time I close my eyes
I know that I'll wake upWas it real or did I just make it up
And I don't know how it happened
But you got into my blood
And I feel like you're lifting me up
Now every time I close my eyes
I know that I'll wake up
With you in my blood
With you in my blood
