A Way To Us

The Pierces

Slow moving train
Slow moving bus
Slow moving plane
I've got to find a way to us
And now outside, the driving rain
It keeps me in, and I know I must
Find a way to get through the pain
I've got to find a way to us
Well, I want you
But I want you to believe in my life
It's now or never
I want you to hold your body close to me
I feel alive together
Your eyes they tell of the deepest places
And I need a man I can trust
So drink up now, for the celebration
Of finding a way to us
Well, I want you
But I want you to believe in my life
It's now or never
I want you to hold your body close to me
I feel alive together
It took so long for you to see
(It took so long for you to see)
What you wanted us to be
It took so long for you to see
(It took so long to see)
Well, I want you
But I want you to believe in my life
It's now or never
I want you to hold your body close to me
I feel alive together
Slow moving train
I've got to find a way to us
