

# All of the Ways

## Interpol

Tell me you're mine  
Tell me you're mine to break the ice Does he make you smile?  
Does he fully embrace the way  
Does he leave you to the flames  
That you like, who is this guy? This twee neophyte  
Does he know that I'll wait for all time  
Does he make you right  
Does he say that he'd like to know you  
Does he say that he wants to know All of the ways  
You will make it up  
Make it up for me  
Make it up for me Tell me you're fine  
Tell me it's hard to fake it time after time  
Who is this guy  
Does he say that he'd like to know you  
Does he say that he wants to know  
Does he say that he wants to know All of the ways  
You will make it up  
Make it up for me  
Make it up for me All of the ways  
You will make it up  
Make it up for me  
Make it up for me I know the way you will make it up  
Make it up for me  
I know the way you will make it up  
Make it up for me I know and I know the way you will make it up  
Make it up for me  
I know and I know the way you will make it up  
Make it up for me
