

# Sight Unseen

## Petra

For so long I was dependin' upon  
My senses and fences, I tried to ride on  
And trusting in things that can never be seen  
Was always a crutch on which others must lean  
Thinking if I could see I would believe  
Then somebody said believe and you will see Sight unseen, sight unseen  
You have to take it sight unseen  
Sight unseen, sight unseen  
You have to take it sight unseen  
Blinded by the darkness  
Only faith can come between  
Sight unseen, sight unseen Evidence built into every design  
Led to conviction between every line  
Faith is the key that can open the veil  
To love incarnated and pierced with a nail  
Listen my friends, have I got news for you  
The nails in His hands and feet were meant for you Sight unseen, sight unseen  
You have to take it sight unseen  
Sight unseen, sight unseen  
You have to take it sight unseen  
Blinded by the darkness  
Only faith can come between  
Sight unseen, sight unseen Blinded by the darkness  
Only faith can come between  
Sight unseen, sight unseen  
You have to take it sight unseen  
Sight unseen, sight unseen  
You got to take it sight unseen  
Blinded by the darkness  
Only faith can come between  
Sight unseen, sight unseen
