

# Underdogs

[Ryan Beatty](#)

Start from the beginning  
Feels like it was yesterday  
The best of my friends stay  
The rest of em' fade away Now there's nothing but green lights  
The reason we stand in place  
So time doesn't miss me  
I move at a faster pace Don't care what they say  
They'll never change us (underdogs)  
We live for today  
And no one can blame us (Underdogs)'Cause when you're the underdog,  
They never get down,  
All they do is stop and stare,  
Under the surface,  
We got a purpose,  
We are the Underdogs When you fall down, get up,  
Then you'll be right back,  
on track, on track What is perception?  
Its just a reflection of who I am  
At school you were so cool  
Now you're just a grown fool  
These kids can be so cruel Yeah, Yeah Don't care what they say  
They'll never change us (underdogs)  
We live for today  
And no one can blame us (Underdogs)'Cause when you're the underdog,  
They never get down,  
All they do is stop and stare,  
Under the surface,  
We got a purpose,  
We are the Underdogs No I can't look down (underdog)  
If i could do it again (underdog)  
I wouldn't change a thing (underdog)  
I'm living out my dreams, yeah  
And I'm so close,  
I came too far to turn back now,  
The world is at my feet  
I know my destiny,  
mission complete Don't care what they say  
They'll never change us (underdogs)  
We live for today

And no one can blame us (Underdogs)'Cause when you're the underdog,  
They never get down,  
All they do is stop and stare,  
Under the surface,  
We got a purpose,  
We are the Underdogs When you fall down, get up  
You're just a beginning  
You're still just pretending  
Then you'll be right back  
on track, on track When you fall down, get up  
You're just a beginning  
You're still just pretending  
Then you'll be right back  
on track, on track
