Case Is Closed

Dave Hollister

Okay baby come here
Look, this what we gon' do
We gon' play this cops and robbers thing
But you got to keep it to yourself
I mean, ya killin' me, aight
Listen
Put your hands where I can see 'em
License and registration
You're doing 60 in a 35
Do I detect intoxication
Oh, get up on this ride
Put your hands behind your back and close your eyes
I'm 'bout to run you downtown
Lock you up and throw away the key
Tonight I'm gon' be yo police
(You got the right)
To remain silent
(You got the right)
To keep this on the low
Anything you say or do
Can be used against you
But as far as I'm concerned
Case is closed
If you wanna testify
They have witness protection
Oh, but that can't save you from this crooked cop
Once I start, I won't stop
You want this strong affection
Oh, I, stop running yo mouth, tellin' all yo friends
That you've been locked up
And you wanna be back in
You're blowing my cover, turn your sirens off
You gon' get me fired for messing with the law
(You got the right)
To remain silent
(You got the right)
To keep this on the low
Anything you say or do
Can be used against you

But as far as I'm concerned case is closed
(You got the right)
To remain silent
(You got the right)
To keep this on the low
Anything you say or do
Can be used against you
But as far as I'm concerned case is closed
This was supposed to be between me and you
Don't want nobody to know, the freaky things we do
Handcuffs, interrogation, body's anticipating
Don't know how long I've been waiting
You're about to drive me crazy
You've just been sent, to community service
Full body search, and I'm 'bout to work
You can call for an extension, and swear not to mention
Put your right hand in the sky
And keep this all between you and I
(You got the right)
To remain silent
(You got the right)
To keep this on the low
Anything you say or do
Can be used against you
But as far as I'm concerned
Case is closed
(You got the right)
To remain silent
(You got the right)
To keep this on the low
Anything you say or do
Can be used against you
But as far as I'm concerned
Case is closed
Now if you keep this to yourself
We can do this anytime you want to, ahite
I aint gon' tell nobody
Far as I'm concerned
Once we do this
Case is closed
Ha ha
