

# Isn't It About Time

Stephen Stills

Don't look now, don't heed the warning  
It's really of no concern  
Don't hear the sound, they're only just bombing  
Anything left to burnIsn't it about time  
Isn't it about time we learned  
Isn't it about time  
Isn't it about time we learnedFire, flood, familiar, famine  
The jungle so far away  
Blood baked into blackened soil  
How many tons a dayIsn't it about time  
Isn't it about time we learned  
Isn't it about time  
Isn't it about time we learnedIsn't it about time  
Isn't it about time we learned  
Isn't it about time  
Isn't it about time we learnedWhy, does it take so long  
Is it easy not to care  
Seems to me that enemies are fantasies  
Somebody else's living nightmareWho gonna live, who gonna die  
Do you want to know  
Does it give you a sense of power  
To say yes or noIsn't it about time  
Isn't it about time we learned  
Isn't it about time  
Isn't it about time we learnedIsn't it about that time  
Isn't it about time we learned  
Isn't it about time  
Isn't it about time we learnedIsn't it about time  
Isn't it about time we learned  
Isn't it about time  
Isn't it about time we learned
