Dancing On Air

Jack Bruce

Dancing on air
We'll be there 'til the close of the day
Try anyway
But you can't keep the magic awayPeople say it's not real
Don't seem to have any feelingsDancing on air
We'll be there 'til the end of the sky
Bending the time
Just a little so we can get byPeople say it won't last
Every thing's going much fasterLeaving our hearts in a thousand towns
Sleeping when dawn comes around
Staying there just for a moment or two
TogetherLeaving our place in a thousand rooms
Breathing in gasoline fumes
Laying there just for a moment or two
TogetherDancing on air
We'll be there 'til the end of the sky
Bending the time
Just a little so we can get byPeople say it won't last
Every thing's going much fasterLeaving our hearts in a thousand towns
Sleeping when dawn comes around
Staying there just for a moment or two
TogetherLeaving our place in a thousand rooms
Breathing in gasoline fumes
Laying there just for a moment or two
Together
