

# Boots

## SPARK!

No more trouble  
In this town  
Silent night  
For a change Brand new year  
Coming up ahead  
You know it's been so long  
Since I rang one in I close my eyes  
Think about the path I took  
Just when I think these times  
Have gotten the best of me I can see my mother in the kitchen  
My father on the floor  
Watching television  
It's a wonderful life Cinnamon candles burning  
Snowball fights outside  
Smile below each nose  
And above each chin Stomp my boots before I go back in I wasted my wishes  
On Saturday nights  
Boy, what I would give  
For just one more I'd soften my heart  
Shock the world Do you hear my voice?  
Do you know my name?  
Light my way  
Lift my head, light my way I can see my mother in the kitchen  
My father on the floor  
Watching television  
It's a wonderful life Cinnamon candles burning  
Snowball fights outside  
Smile below each nose  
And above each chin Family all together  
Presents piled high  
Frost on all the windows  
What a wonderful night Cinnamon candles burning  
Snowball fights outside  
Smile below each nose  
And above each chin So happy they found me  
Love was all around me  
Stomp my boots before I go back in
