

Isolation

USER

She naked she hopeful
These pillows of soul now keep going
Shes going
To find her way
Any answer to these guiding lights
To you
Tonight I cant loveFor u are the only one
For u are my only oneShe aint anchored by love
She treats me like
Diseased sights for the youngNo one
she wakes me she goes
He wont sleepAnd now wait for the leaves
When can u grow?
When can u breathFor u are the only one
For u are my only one
