

# Blind

## Doll Skin

You need to lighten up now darlin  
You've got places to go  
You're not that big now are ya  
Life's not an afterglow  
There's brightness there i know it  
You're blinded by the dark  
You need to lighten up my darlin  
Fix your eyes upon the spark We can get through this  
Only if you're willing to try  
We can get through this  
Only if you scream at the sky  
You can hold on to your hope now  
Don't waste away the days  
The innocence that you lost  
The light burns you with its rays  
You tried to be strong and blew it  
Now its time to take it back  
Keep looking up now darling  
Your smile is exactly what attracts We can get through this  
Only if you're willing to try  
We can get through this  
Only if you scream the sky Yeah  
We can get through this  
Only  
You've dug your hole so deep now  
You've lost your sight of sun  
The phantom limb of romance  
You're not the only one Yeah  
We can get through this  
Only if you're willing to try
