Ode To Clarissa

Queens Of The Stone Age

I knock on your door
I tiptoe on the floor
I hope your daddy ain't home right now
He warned me once before

You know he warned me once before

I stay up late
So we can keep our date
I love that we don't get no sleep
So to your window I creep
You know he warned me once before

[Chorus]
I'm the one your mamma told ya â€˜bout
I'm the one your papa told ya â€˜bout

Now you're in love
And why shouldn't you be
I'm everything you'll never be
You say don't leave
Baby, I can't wait
Next time, we share my second base

[Chorus]
