

# Superheroes

## Racer X

Wasting all our time  
You mortals and your crimes  
Move quick as lightning  
Burning across the grease  
Could be a little frightening  
Mutations never cease Superheroes, giant freaks  
Tear apart the evil to save the weak  
Superheroes, tell no lies  
See all that's true, though mutant minds Breaking down the walls  
Busting bad guys' balls  
We feed on radiation  
Our demons never sleep  
More than a mad creation  
On through the night we creep Killerheroes, superfreaks  
Rock down the wrong, pour on the heat  
Superheroes, radar spies  
Burning through the steel with x-ray eyes Call and we'll come to save the day  
And quickly wash your fears away Superheroes, giant freaks  
Tear apart the evil to save the weak  
Superheroes, tell no lies  
See all that's true, though mutant minds Killerheroes, superfreaks  
Rock down the wrong, pour on the heat  
Superheroes, radar spies  
Burning through the steel with x-ray eyes
