

# Moon Rocks

## Rapdragons

Flying saucers, levitation, yo, I could do that  
Get ready for heavy duty, go on, give it a chance  
Give it a chance, give it a chance  
I saw your hair start to curl, so get up  
Write it down, you better wait for a while  
So take your hands out of your pockets  
Get your face adjusted, I heard it, somebody lied  
And I'm staring out the window  
Gonna let this thing continue, in its natural time  
Roundheads, squareheads, get settled in  
You can hear my belly rumble  
There's a voice that starts to mumble  
Woo, it's startin' to sing  
Protons, neutrons, I ate a rock from the moon  
Got shocked once, got shocked twice  
Let's see what it can do  
Man in the moon, the moon in the man  
I got a rock in my throat, upside, upside down  
My tummy start to talk, what it say?  
Gonna rock it 'til I shock it  
Gonna kick it 'til I drop it  
Woo, love at first sight  
You can kick it, you can poke it, ooh  
I think you broke it, what about that?

Skin from a snake, blood from a stone  
You know, that ain't no lie  
I got hundreds of expressions  
Try to make a good impression  
Woo, right between the eye  
I don't mind, let me go  
[Incomprehensible], I don't know  
Let me be, why not stay?  
I feel numb, let me play  
I got a wild imagination  
Talkin' transubstantiation  
Any version will do  
I got mass communication  
I'm the human corporation

I ate a rock from the moon  
Moon in the rock, rock in the moon  
There's a moon in my throat  
You might think I'm wasting time  
You might laugh but not for long  
Hey! I'm workin' it out, work it out  
I don't mind, let me go  
Sounds inside, I don't know  
Let me be, why not stay?  
I feel numb, let me play
