

Greatest Gift

DJ Steef

Gotta gift gotta share
Feel the love it's everywhere
Now's the time feelin' fine
I'm gonna be home in time Starry lights in my eyes
Girl it makes you realize
That you mean so much to me
Do you believe in destiny? 'Cause I felt it from start
Your playing with my heart
Make a wish and you will see
The perfect gift is me, yeah Gotta find my way back to you Wrap me like a present
Fold me like a letter
I gotta get myself to you
Wanna be together
Say that it's forever
Tell me what I gotta do Wrap me like a present
Fold me like a letter
I gotta get myself to you
The greatest gift that you could give baby
Is your love No, I'm not gonna miss this chance
Such a perfect new romance
Mesmerized by just one chance
Girl I'm gonna make you dance One more wish I have is you
'Cause one and one makes two
We're alone and I'm so blue
So what are we gonna do? Mistletoe for you and me
I'll be kissing you under that tree
Baby wait and you will see
My love is gonna set you free, yeah Gotta find my way back to you Wrap me like a present
Fold me like a letter
I gotta get myself to you
I wanna be together
Say that it's forever
Tell me what I gotta do Wrap me like a present
Fold me like a letter
I gotta get myself to you
The greatest gift that you could give baby
Is your love What you do to me it's a mystery
Girl just can't you see? I need you here with me
Come and set me free

The greatest gift you'll see is you for me
Wrap me like a present
Fold me like a letter
I gotta get myself to you
I wanna be together
Say that it's forever
Tell me what I gotta do
Wrap me like a present
Fold me like a letter
I gotta get myself to you
The greatest gift that you could give baby
Is your love
Wrap me like a present
Fold me like a letter
I gotta get myself to you
I wanna be together
Say that it's forever
Tell me what I gotta do
Wrap me like a present
Fold me like a letter
I gotta get myself to you
The greatest gift that you could give baby
Is your love
What you do to me it's a mystery
Girl just can't you see? I need you here with me
What you do to me it's a mystery
Girl just can't you see? I need you here with me
What you do to me
