Hiding In Darkness (Remix by Kyson)

[WhoMadeWho](#)

Boredom
The light's out inside me
When something isn't right with hiding in darknessWe're hiding in darkness
We're hiding in darkness
We're hiding in darkness
We're hiding in darknessLend me your mask
Let me show who I am
Stop hiding
You feel it isn't right
Come out in the darkness
The light's out
I'll tell you the truth
When something isn't right with hiding in darknessWe're hiding in darkness
We're hiding in darkness
We're hiding in darkness
We're hiding in darknessWe're sharing the darkness
We're hundreds in darkness
We dance in the darkness
We kiss in the darkness
Some pray in the darkness
Turn pale in the darkness
Get high on the darkness
So hungry for darkness
We're hundreds in darkness
We're hiding in darknessWe're hiding in darkness
We're hiding in darkness
