

Always

Red Sleeping Beauty

We take my car, drive down the coastline
The radio's high, our spirits, too
It's playing lovely disco music
And I know that
When you look back
I've got lost in your heart
And I pray that You will always be around, yeah
We will escape this fuced up town, yeah Always believe in
Always care
Always be gentle
Always dare
Always be now and
Never than
Always, always, always
Here's everything I ever wanted
An open sea, an open book
The silence roars from the open fire
And I know that
When you look back
I've got loat in your heart
And I pray that You will always be around, yeah
We will escape this fucked up town, yeah Always believe in
Always care
Always be gentle
Always dare
Always be now and
Never then
Always, always, always
Whatever goes around, it comes around
Whatever goes around, it will come around
Whatever goes around, it comes around Always believe in
Always care
Always be gentle
Always dare
Always be now and
Never then
Always, always, always Always belive in
Always care
Always be gentle

Always dare
Always be now and
Never then
Always, always, always
