This Is It

Brawdcast

When the feelings come to me once again
I still hear the words they're saying
And when I'm wondering if I can step in
I'll take comfort in the sounds that's playing
'Cause when I am feeling fine don't wanna walk away
Don't wanna lose myself, no matter what I say
There is a game in town, this is it
They call it the new change
And when the feelings rise pulling me off my knees
I won't be scared of it 'cause I can't believe
There is a game in town, this is it
They call it the new change
And when I'm pleading but I can't get in
No one's listening to a word I am saying
There is no reason why we can't begin
Broken hearts are congregating
'Cause when the feeling's fine and the world steps in
I'll organize myself, I'll get my mind moving
There is a game in town, this is it
They call it the new change
And when I'm running scared and I can't resist
I'll organize myself with all the chances missed
There is a game in town, this is it
They call it the new change
And when I'm running scared and I can't resist
I'll organize myself for all the chances missed
There is a game in town, this is it
They call it the new change
This is it, this is it, this is it
They call it the new change
This is it, this is it, this is it
They call it the new change
This is it, this is it, this is it
They call it the new change
